

Aim and Scope

The Korean Society of Exercise Physiology (KSEP; <http://www.ksep.kr>) was founded in 1988 and currently has around 2,000 members. The Exercise Science (Exerc Sci), an official journal of the KSEP, was first issued in 1992 and currently has published 28 volumes. The aim of the Exerc. Sci. is to scientifically show the “scientific and clinical value of exercise in health and disease control”, provide evidence for this, consequently promote the development of elite sports, and improve the health of the general public. Therefore, Exerc Sci focuses on evidence-based scientific research of multidisciplinary studies, including physiology, biochemistry, nutrition, metabolism, genetics, immunology, medicine, rehabilitation, growth and development, training, anthropometry, and epidemiology related sport, physical activity, and exercise. The types of manuscripts include research articles, reviews, short/rapid communications, and case reports in the field of exercise science. For internationalization, we operate a separate “full English journal homepage” and a “submission evaluation system”. The Exerc Sci is an international, double-blind peer-reviewed and open access journal published quarterly (February 28, May 31, August 31, and November 30). Full texts are freely available from <https://www.ksep-es.org>. The Exerc Sci is also partially supported by The National Research Foundation of Korea (NRF).

CONTENTS

Volume 33 Number 3 August, 2024

Editorial

- 251 The Role of the 'Exercise Science' in Sports Injury Prevention and Rehabilitation
Keun-Ok An

Review Articles

- 254 Current Trends of Exercise Programs for Improving Cognitive Function in Older Adults
Jae-Hyun Lee, Wooyeon Jo, Jaeho Jin, Yaxiong Zheng, Soyeon Lee, Se-Yeon Jang, Minseo Kim, Young-Jin Moon, Hye Gwang Jeong, Sang Ki Lee
- 272 Research Trends on MoTrPAC and Exercise Science Applications
Minchul Lee
- 278 The Practical Impacts of Exercise-Intervention on Suicidal Ideation
Kwi Baek Kim, Yi Sub Kwak

Original Articles

- 284 Analysis of the Moderating Effect of Walk Ratio on the Relationship Between Bone Mineral Density and Fall Efficacy and Balance Confidence in Elderly
Min-Jun Kim, Inhwan Lee
- 294 Fracture Injuries in Adult Korean Taekwondo Sparring Athletes
Sangcheul Yoo, Munku Song
- 301 Impairment of Multi-Finger Force Control in Adult Patients with Dyskinetic Cerebral Palsy
Junkyung Song, Kitae Kim

CONTENTS

Volume 33 Number 3 August, 2024

- 310 Effects of 16-Week Exercise on Insulin, HOMA-IR, and Glucose Levels in Obese Childhood
